WORK EXPERIENCE

Frontend Developer

Ecosa (KR Global Limited) - Hong Kong

June 2022 - November 2022

Javascript (Nuxt.js) | Storyblok (Headless CMS) |

SCSS | Styled Component | Component State | Bootstrap

- Created Diverse UI layout based on actual sales figure that boosted the sales of less popular products by 30%
- Regular meetings with the UI/UX team to discuss new features that are customized according to sales performance
- Worked with Google analytics and market research to rival competitors with cutting-edge features
- Used to work in a global team with members from other locations to create location-based page content and design (simplistic design for Japan and practical design for Australia e.t.c)

Software Developer

Nuthon IT Solutions Limited - Hong Kong

October 2020 - May 2022

Javascript (Vue.js) | AWS | Java (Android) | JavaBeans (JSP)

- Created customized software application for notable clients such as the Hong Kong Government and the Hong Kong Tourism
- Developed frontend application for real estate that allow the residents to use the clubhouse facilities
- Assisted in Improving the Hong Kong Symphony of Lights Tourism Application for the visually impaired users (voice oriented control)
- Implemented new functions (google search API optimization and infinite scrolling of search results) for 1010 telecommunication website

Intern Mobile Application Developer

Accord Apps Development - Hong Kong

June 2020 - September 2020

Flutter | PHP | Woocommerce | Opencart

- Built full-stack mobile applications customized to clients
- Created a automobile app platform for dealers and users to interact and trade vehicle parts
- Assisted in E-commerce website by setting up payment gateway and product stock management
